

Electricity Line Charges

Effective 1st April 2008

Disclosure pursuant to the Electricity (Information Disclosure) Requirements 2004. Centralines is responsible for the design, development and maintenance of the electricity lines network that delivers power to homes and businesses in the Central Hawke's Bay region. Centralines electricity line charges are a component of the electricity account you will receive from your electricity retailer. These charges are not the same as the electricity retail charges that appear on consumer accounts. Retail charges include other costs, such as energy purchases, that are repackaged by retailers into electricity retail tariffs. Other lines and Use of System charges or conditions may also apply. Please refer to the full Centralines Pricing Schedule. Customer numbers are estimates at Dec 07. GST is additional to all listed charges. If you have any questions or would like more information on these charges, please contact your electricity retailer.

Note 1. On Peak Demand (OPD) is the kW obtained by multiplying by two the kWh delivered over the half hour period of maximum consumption between the hours of 7am and 11am, and 5pm and 9pm on a working day

Note 2. Summer is the period 1 October to 30 April, Winter is the period 1 May to 30 Sep

Note 3. Anytime Maximum Demand (AMD) is the kW obtained by multiplying by two the kWh delivered over the half hour period of maximum consumption during the month to which the charges apply.
