Other Settings Comply with AS4777.3? Yes No

APPLICANT ACCEPTANCE

I hereby apply to connect a Distributed Generator to the Centralines network and confirm that the above information is correct and that the Generator shall at all times be operated in accordance with all Centralines connection and operational standards

I confirm that I will not connect any generation until I have received written approval from Centralines and must provide post installation documentation within 10 business days of connection. Application must be signed by the party seeking to become distributed generator i.e. Holder of the ICP. Not installer.

I agree to Centralines notifying the nominated energy retailer of the approved DG connection including the new price category that will apply.

I agree to pay the DG1 application fee and any other processing fees that may apply, to Centralines.
