

CENTRALINES ELECTRICITY DISTRIBUTION DELIVERY PRICES

EFFECTIVE 1 APRIL 2026

Centralines is responsible for the development and operation of the local electricity distribution network in Central Hawke's Bay. We take electricity generated at power stations and transmitted by Transpower, and distribute it through our network to consumers.

Owned by the Central Hawke's Bay Consumers Power Trust, Centralines works to ensure a reliable and resilient electricity service to consumers, manage demand across the network, and integrate renewable energy resources into our local grid.

Electricity distribution charges in the Central Hawke's Bay region will change because of increasing costs of operating and investing in the distribution network. Transmission charges will increase in line with the new Commerce Commission allowances.

For more information, visit www.centralines.co.nz/pricing

PRICE CODE	DESCRIPTION	ESTIMATED NUMBER OF CONSUMERS	UNIT OF MEASURE	PRICES EFFECTIVE FROM 1 APRIL 2025		PRICES EFFECTIVE FROM 1 APRIL 2026

¹ DG - Distributed Generation/Resources, where a method of electricity generation is connected and electricity is exported back into the Centralines' network.

² DG - electricity exported back into the Centralines' network at peak time (same as ONPK and PKIN times below) is subject to a negative price based on long run marginal cost benefit.

Notes

- All price categories, with the exception of U01, include a fixed daily charge and one or more variable charges. The variable charges that apply to a connection are dictated by the type of meter and metering configuration.
- Day (CTUD) is the period between the hours of 7am to 11pm and Night (NITE) is between 11pm and 7am.
- Residential and General Time of Use periods: Peak times (ONPK and PKIN) are weekdays from 7am to 11am and 5pm to 9pm, when demand is highest. Shoulder (SHDR) times apply on weekdays from 11am to 5pm and 9pm to 11pm, and on weekends from 7am to 11am and 5pm to 9pm. Off-peak (OFPK) times are overnight from 11pm to 7am on weekdays, and on weekends from 11am to 5pm and 9pm to 7am, when demand is lowest.
- Peak inclusive tariff (PKIN) is applicable to inclusive meters where controlled load cannot be measured via separate channel.
- On Peak Demand (OPD), Summer or Winter, is the kW's delivered over the half hour period of maximum consumption between the hours of 7am and 11am, and 5pm and 9pm on a working day.
- Summer is the period 1 October to 30 April, Winter is the period 1 May to 30 September.
- Anytime Maximum Demand (AMD) is the kW's delivered over the half hour period of maximum consumption during the month to which the charges apply.
- All prices as stated are GST exclusive.
